Principal Dr. Thangavel encouraged the women students to participate in the activities and improve their skills.

Mrs E. Hemalatha, Costume and Bridal dress designer, gave many useful tips and also demonstrated embroidery work. Many women students came forward to learn a few of the basic tips and improve on their skills.

Mrs E. Hemalatha stated that as fashion is the art of creative details, the field of fashion designing is one of the most glamorous, intriguing and astonishing career options of this generation. If you have a flair for creativity, impeccable personal style and originality, then the captivating world of fashion designing is just the right thing for you.

The work of a fashion designer is to design clothing and fashion ranges, but it is not as easy as it seems. The love for designing clothes is just not enough to be a good designer as the competition is highly fierce. One needs the right guidance, expertise and experience to become a successful fashion designer, as your skills can be polished with the right training.

In conclusion she said that Fashion Designing is undoubtedly an exceptional career choice as it withholds a bright future due to its gaining popularity and steady money.
